Professional Summary

Software Developer with expertise in building scalable cross-platform applications and integrating complex backend services. Proven track record of architecting 5 production-grade applications from scratch, currently serving over 100,000 active users across 1,600+ institutions. Highly proficient in modern software design (Clean Architecture, Dependency Injection), robust state management (BLoC, Riverpod), secure authentication flows (Firebase, OAuth), and RESTful API integrations. Strong foundation in Data Structures and Algorithms with expanding capabilities in modern backend technologies.

Education

Bachelor of Technology in Computer Science and Engineering

Dr. A.P.J. Abdul Kalam Technical University (AKTU), Lucknow

2021-2025

CGPA: 8.31/10.0

Technical Skills

Languages	C, C++, python, Dart, Swift, SQL	State Management	Flutter Riverpod, Bloc
Mobile Dev	Flutter, SwiftUI	Architecture	Clean Architecture, Dependency Injection, feature first approach
Backend	Firebase (Auth, FCM, Firestore, Crashlytics), REST APIs, API Interceptors, MongoDB, Cloudinary	Tools	Git, Github, Postman, VS Code, Android Studio, Xcode, Zira
Database	Firebase, MongoDB, Hive		

Professional Experience

Software Development Engineer

SR EDU TECHNOLOGIES Pvt. Ltd., Hyderabad

June 2025 – Present (Internship: Feb 2025 – May 2025)

- Developed **5 production-grade Flutter applications** serving **100K+ users across 1700+ schools** for an education ERP platform. Integrate REST APIs, Razorpay Payment Gateways, Firebase Cloud Messaging, Notifications and used BLOC and River state management. Used Feature first Approach, Clean architecture and Dependency Injection along with API interceptor

Key Projects:

- **3 ERP Mobile Apps (Parent, Staff, Management)**
 - features: Attendance, Homework, Report cards, Fee payment (Razorpay), Academic Calendar, Parent-Teacher Communication, Admission Management, Notifications.
 - Deployed across 1,700+ schools with 100K+ active users.
 - **Tech Stack:** Flutter, BLoC/Riverpod, Authentication, Firebase FCM, Hive, Razorpay, REST APIs, Clean Architecture, Dependency injection
- **Learning Management System (LMS)**
 - Student Learn with Video, Quiz, Courses, Games for learning etc and gamified progress tracking.
 - **Tech Stack:** Flutter, Authentication, Bloc, REST APIs, Video Player, Clean Architecture, Dependency Injection,

Software Development Intern

Pragmat Tech Pvt. Ltd., Hyderabad (Certificate Link)

October 2024 - February 2025

- Enhanced existing Flutter applications by developing new features and resolving critical bugs.
- Collaborated with cross-functional teams to deliver scalable and user-focused mobile solutions.
- Implemented **text extraction from videos using ML Kit** with timestamp storage in DashCam application.
- Developed features including **currency picker, CSV import/export, and context-based help dialogs** in EMI Manager app.
- Built **MCQ test creation and automated evaluation system** for an OMR-based exam platform.

Personal Projects

- **Data Visualizer** — Flutter, REST APIs, Syncfusion Charts Built cross-platform analytics platform integrating **data.gov APIs** to visualize real-time datasets through interactive charts and dashboards. Implemented dynamic chart rendering and filtering using **Syncfusion Charts** enabling scalable data exploration. Demo — GitHub
- **UltraCart – Full Stack E-Commerce Platform** — Flutter, Node.js, MongoDB Developed scalable e-commerce system supporting **user authentication, product catalog, order management, and payment workflows**. Designed backend APIs using **Node.js and MongoDB** with role-based access control and integrated **Cloudinary** for media storage. GitHub

Achievements & Leadership

- **Academic Excellence:** Secured 3rd Rank in B.Tech (CSE) during 3rd Year
- **Open Source:** 7+ contributions to Flutter projects with merged pull requests
- **Technical Leadership:** Technical Head for College Fest - organized 20+ technical events with 1000+ student participation
- **Community Impact:** Founded AKTU NOTES website, serving 200+ students with academic resources
- **Problem Solving:** Active competitive programmer with consistent LeetCode practice
